HANDMADE
WITH LOVE

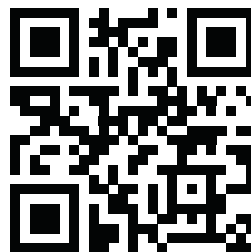

From day one, when we opened the doors to our first My Goodness store, we believed that we could make good food just like our chef's mum {Margaret} made for her large family & make her proud.
It's how we did it back then and how we still do it today. Just like Margaret did, our chefs care about each and every order that comes out of our kitchens. Our food doesn't just taste good, it's also guilt-free. You won't feel remorse after eating with us, instead you'll feel satisfied and feel good for hours after!
